

Risk Assessments

Project Name:	Inventory Management Systems (IMS)
Project Description	An individual project that must use all aspects of technology, fundamental modules and tools and methodologies
Project Owner:	Daniel Ahuchogu

Risk ID	Date Registered	Risk Area	Risk Description	Probability	Risk Level	Project Impact	Proximity/Length or Impact	Response Strategy
1	1/1/2021	COVID 19	Contracting the virus	5	7	Health Is a priority. Take care of yourself so you can be a 100%	2 – 3 weeks	Informing your peers and trainers. That you need to take care of yourself and recuperate
2	29/12/2020	Internet	Connection Issues	4	5	Can't connect to the internet to go over the modules on QA community online	1-2 weeks	Speaking to my Internet provide to solve the issue or contacting the trainers to get booster cables.
3	29/12/2020	Laptop Performance	My Laptop Speed Of Working	5	6	The speed of running my code and uploading my code to git daily.	The whole project	Contact QA and let the trainers know that you requested a new laptop.
4	29/12/2020	Water Damage	Spilling liquid on the laptop	6	6	The water can potential damage my laptop internal software.	1-3 weeks	Requesting a laptop from QA. Whilst my laptop has been sent for repairs.
5	18/12/2020	My Knowledge of Coding	Very basic coding knowledge	8	8	No motivation to do the project because of my fear not doing well.	The whole project	Try your best and don't be afraid to ask for help
6	18/12/2020	Family Emergency	Urgent family meeting	6	6	Family is hugely important. So if there's an emergency. Have to respond fast.	1 – 2 weeks	Let any of the trainers know

7	10/01/2021	Electrics In The House	Faulty main switch	8	8	Wouldn't be able to do the project due to the internet and electrical power needs to be repair	The whole project	Have to find away to contact the trainers while the repairs are being done.
8	11/01/2021	Windows Update	Laptop does automatic windows update	7	7	Update closes all my application without me commit any changes through my git	The whole project	Always save my progress when working and commit any changes.
9	13/01/2021	Git Issues	Git lags or bugs	6	6	Git user issues and git system lagging within my laptop	50% of the project	Trying to recap git and ask the trainers For guidance
10	13/01/2021	Road Works	Road works and maintenance on my street	6	7	Road works could potentially shut down internet connectivity for my area	The whole Project	Explain during presentation day what happened.
11	14/01/2021	Mental Health	Taking care of my mental health. This coding is new to me so I should be hard on myself.	7	7	Wouldn't do my project to a high standard. Properly stop midway before the deadline.	60% of the Project	Speak to my trainers, family and my friends about the issue.
12	15/01/2021	Food Poisoning	Eating food that I could react badly to.	7	6	Could lead to me being ill and having an unsettled stomach	3-4 days	Contact the trainer about my issue and send an email to Josh informing him as well.
13	15/01/2021	Project Help and Question	Asking the trainers question about my code and other related issues	6	7	Could halt my progress with the project.	1 day	Holding out and waiting for the availability of the trainers or ask my fellow peers.
14	16/01/2021	Lack Of Motivation	Losing the motivation to do the work because of lack of knowledge and my skills might not be good enough.	7	7	Could stop any further progress in my project and any work.	2-4 days	Asking my friends, fellow peers, family and the QA trainers for help and advice.

15	16/01/2021	User Error	We are all humans, no machine we make mistakes and we don't realise until the end of the project	7	7	Could mess up a huge chunk of my project work.	The Whole Project	Coding is all new to me. Mistakes need to happen, so you can learn from them.
